Ladder of involvement

What is co-production?

“Co-production is not just a word, it is not just a concept, it is a **meeting of minds** coming together to find shared solutions. In practice, co-production involves people who use services being consulted, included and working together from the **start to the end** of any project that affects them. When co-production works best, people who use services and carers are valued by organisations **as equal partners**, can share power and **have influence** over decisions made.”

Think Local Act Personal

It can take place on a one-to-one when a social worker helps a person design their own support.

In a team when a manager asks people with lived experience to help improve the way their team delivers a service in the local area.

Or strategically when people and carers with lived experience work together with staff and other stakeholders to design, develop, deliver or review a policy, strategy or service that will impact upon a larger group of people.
